The officials of the Reading railroad, the largest producer of anthracite coal, say that there is absolutely no prospect that the supply of hard coal will be any greater during the winter. The present price will rule for nearly a year. Washington physicians attribute an epidemic of grip and pneumonia to the lack of fuel in that city.  
The list of casualties from the wreck at Byron, Cal., includes 12 dead and 20 or more injured. The wreck occurred Saturday night. The Stockton express ran into the rear end of the Los Angeles, "Owl" train, smashing the last car to bits. Many of the dead were so badly mangled that hours elapsed before they were identified. The "Owl" train's flagman signaled the express at the proper point. The flagman on the express stated that the brakes were immediately applied, but they failed to work as quick as usual.

Letters like the following are calculated to make the burdens of a newspaper man grow lighter: I herewith hand you money order for \$1 on subscription to INTERIOR JOURNAL. I will not say I can not do without the JOURNAL, for I suppose I could if I had to, but I would dislike very much to have to do so. I never hear from home except through the JOURNAL. Hence its semi-weekly visits are like letters from home, and then its politics are all right. I hope Judge Saufley will be your judge again. Wishing you success and you and all my old friends a merry Christmas and a happy and prosperous New Year, I am  
Yours truly,

## THE INTERIOR JOURNAL

E. C. WALTON

H. H. HENNINGER

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

M. F. NORTH

Is a candidate for the Democratic nomination for Representative of Lincoln county, subject to the action of the party.

J. M. ALVERSON

Is a candidate for the Democratic nomination for Representative of Lincoln County, subject to the action of the party.

THE Danville News gets mad with us because we complimented the splendid account the Advocate gave of the convention and in its anger says the INTERIOR JOURNAL'S support would defeat any candidate. The astute editor of the Harding Boomer also intimates that our politics are not straight. The latter charge is so silly that we will not take the space to deny it. Mr. Lillard knows as well as the rest of our acquaintances, what kind of a democrat we are. The first assertion may possibly be true, but we do not believe it. Of course we do not "feel our keeping and influence" like the great editor of the News, who nominated Hon. Robert Harding long before the convention came off, but we think this paper, like all others, has a certain amount of influence and when that influence is used in the right way it can help rather than damn a cause. We claim very little, if any, credit for the nominations of Judge M. C. Sautley and Hon. J. S. Owens, Jr., although we did all in our power in their interest and our favorites "got there." The candidate that Mr. Lillard tore his nether garments for was the only one before the convention who failed to get a nomination. However, we do not charge that the News handicapped Mr. Harding, but that that gentleman "carried weight," as horsemen say, no looker-on at the race will deny. It is readily apparent that Mr. Lillard is sore, very sore, over the result of the convention and we would advise him to cool off a little before he again makes statements about this paper and its editor, which he well knows he can not substantiate.

CONGRESS is again considering a constitutional amendment changing inauguration day from March 4 to a day later in the spring. In 1901 a national committee was appointed to formulate a plan to this end. On this committee are the governors of the 45 States, and of all the territories, besides 15 citizens of the District of Columbia. All of the members of this grand committee are supposed to favor a change, the only difference among them being the day to be chosen. The last Monday in April seems to be preferred. This is favored because it is late in the spring when the outdoor ceremonies will not be marred by cold weather, snow or sleet. A day of the week is named because such an arrangement will save the embarrassment now sometimes felt when the day of the month falls on Sunday.

By the most illogical of laws, a man may be punished in the State of New York for attempting suicide. If he succeeds he is beyond the jurisdiction of the New York courts. In no other offense is the attempt to commit punishable while the commission is not. The law does not even have a deterrent influence because a person who attempts suicide confidently expects to succeed and is not influenced by reflecting on what would be done to him in the event of failure.

A BILL has been introduced in the Virginia Senate to abolish the ancient and filthy custom of kissing the Bible upon the administration of oaths which still prevails in the old Dominion. We have seen the greasy, dirty book do service for all classes from the high-toned lady to the lowest Negro and have often wondered that a custom so useless and so filthy should have remained so long in vogue. The present legislature should wipe it out forever.

THE Philadelphia North American has rendered a service to decent journalism by instituting a prosecution against a fake correspondent. Though no great degree of success has yet crowned its efforts, its course may well serve as a warning to a class of offenders who have enjoyed immunity too long. This is a splendid move and will likely put a stop to some of the silly and false dispatches that are being sent to the dailies.

CHEERING news comes from the big packing houses at Kansas City to the effect that the price of meat is from 3 to 5 cents per pound lower than at the same time last year with a strong probability of a further decline. Supply now equals demand, and an enormous corn crop affords assurance of beef and pork of a superior quality at fair prices.

CHRISTMAS, the gladdest season of the year, is almost at hand. We hope each and every one of our readers will spend the Yuletide enjoyably and be ready to start in the new year with good resolutions made with the intention of keeping them.

GEN FITZHUGH LEE, in a speech made in New York City, said that he believed some of the young Spanish officers left in the Havana arsenal by Gen. Weyler, blew up the Maine. Tho' his opinion has something to recommend it, the fate of the Maine will remain in doubt until the true story is told by some one in Spain and it is not likely that it will ever be told.

HATS off to the Lexington Democrat. It sent out a 20-page paper Sunday as chuck full of news as an egg is of meat. By the way, Mr. Walton is making this already good paper better all the time.

THE Legislature of Virginia has passed a bill appropriating \$5,000 for the purpose of defending the new constitution against the recent suits which have been brought against it.

### POLITICAL.

Judge Guffy says he will be a candidate for the Legislature.

J. J. C. Bond wants to represent Mercer in the Legislature again.

The "drys" won by a majority of 68 in the election held at Barboursville Friday.

Capt. J. W. McCain defeated Eugene Canby for representative in the Trimble county democratic primary Saturday.

Gov. Beckham has issued an address to the democrats of Kentucky formally announcing his candidacy for re-election.

The bill reducing the duty on importations from the Philippines from 75 to 25 per cent. of the Dingley rates, passed the House.

A bill has been introduced in Congress to open for settlement 505,000 acres of land in the Kiowa, Comanche and Apache Indian reservations.

The democrats of the Missouri congressional delegation probably will present the name of the Hon. Champ Clark for the party nomination for Speaker of the next Congress.

When questioned as to the probability of his making the race for the republican nomination for governor, Judge Guffy said: "Well, they fought me in my recent race on account of my age. I suppose as they think I am too old to be a judge of the court of appeals they would think me too old to make the governorship race."

The contest for the seat in the Senate held by Mr. Teller, of Colorado, promises to be sharp. On the face of the returns, the republicans have a majority of one on joint ballot in the Legislature. The results of election contests make it possible for the political complexion of the Legislature to be altered in several ways. Senator Teller will receive the solid democratic vote.

The House committee on Interstate Commerce reported favorably the bill providing for a department of commerce. A number of existing bureaus, such as those of Labor, Census and Treasury Department statistics, are grouped under the new department in addition to the three new and important departments of insurance, manufactures and corporations. The House Committee on banking and currency made a favorable report on the currency bill.

We note that our young friend, J. M. Alverson, of Stanford, has announced his candidacy for the democratic nomination for Representative of Lincoln county in the Legislature. Mr. Alverson is a dyed-in-the-wool democrat of the 100-proof kind and a fearless and valiant worker for the party, who has bared his breast to many political storms. A fine newspaper man, he is a born politician and if elected will be a credit to Lincoln's splendid and fighting democracy.—Shelbyville Sentinel.

One man was killed, another fatally wounded and a third shot in the leg in a fight at a dance in Beaumont, Tex. The dead man was City Street Commissioner.

UNDER a good picture of Mr. W. S. Burch, of this place, the Advocate says: Mr. Burch is a graduate of Centre College, of the class of '92 and is a young lawyer of marked ability and of high rank in his native town. As a parliamentarian, he is skilled and logical, and his rulings in the convention at Danville last week mark him as a fearless and unswerving executive. One ruling, on the seating of the Garrard county delegation headed by Mr. Wood, was somewhat criticised at the time, but was afterward sustained by a vote of the entire Mercer county delegation, which was composed throughout of parliamentarians having but few equals in Kentucky.

The Middleboro News asks this pertinent question: Why not give the people of the United States credit for donating a million to Chicago University, instead of saying John D. Rockefeller did it? He simply puts the price of oil up a cent, and a million goes to the above institution.

KILLED.—William Hammond, who married Miss Cora Elmore, of this county, was killed while coupling cars on the Q & C. near Erlanger Saturday. He lived in Ludlow and had been bracking about a year. He formerly worked on this section under Mr. W. A. Moberly and was not only a good man in his line but a sober, steady, hardworking and honorable gentleman. A wife and three small children survive. The remains were brought here Sunday and laid to rest in Buffalo Cemetery after a brief talk at the grave by Rev. D. J. Ross.

PENDLETON.—Mrs. George F. Pendleton died at about 5 o'clock Saturday afternoon after a long illness of brain fever. A husband and a son of four and a daughter of five are left to feel keenly the loss of an affectionate wife and loving and indulgent mother. Mrs. Pendleton was unconscious a good portion of her illness, but regained consciousness two days before the end came. She was prepared to go hence, but wanted to live to raise the little children, who will never know a mother's tender love. Mrs. Pendleton was a daughter of Mrs. M. J. Withers, who spent a good deal of her time with her and who to the little ones was as grand-mother to the little ones now. The burial occurred in Buffalo cemetery yesterday morning after services by Rev. J. W. Hagin. May the husband, mother, brothers and children soon realize that He doeth all things well and that their loss is her eternal gain. There is no sadder death than that of a young wife and mother, and friends as well as relatives sorrow in Mrs. Pendleton's death.

DR. HELM, of Winchester, Ky., will be at Moreland Dec. 24, to remain three days and will be prepared to do all kinds of dental work.

BIG LEMON.—Miss Pollie Bastin, of the Ewell section, has a lemon of her own raising that weighs a pound. There were 15 on the tree and all were large and fine.

A CARD from Hon. M. F. North, candidate for Representative, giving his reasons for favoring a primary, was received too late for this issue, but will appear in our next.

FIVE IN 18 MONTHS.—The arrival of triplets at the home of Stephen Hall in Pulaski, makes five children born to his wife in 18 months, she having presented him with twins in May or June of last year.

KENNEDY.—John M. Kennedy, eldest son of Mr. and Mrs. E. D. Kennedy, died Friday afternoon from the effects of mumps. Although an invalid for 10 years, the sickness preceding his death was of only two days' duration, but his sufferings during that time must have been intense, as he literally struggled to death. Until his afflictions began, Mr. Kennedy was an industrious young man, of good habits and morals, and he gave promise of making a fine business man. A nervous trouble enveloped this whole family just after reaching his manhood however, and he was rendered almost helpless. His remains were taken to Hustonville cemetery Saturday afternoon and after services by Rev. W. W. Bruce, of Perryville, the pain-racked body was laid to rest by the side of his two brothers, Howard Kennedy, who died a year ago, and Willie Kennedy, who died some two months later. Surely this family has had its share of trouble. Burying three children inside of a year is enough to crush them and in their great sorrow they have the assurance that they weep not alone.

LIVINGSTON.—Livingston, always a busy town, is especially so about pay day. The writer was there Friday and he saw more \$20, \$50 and other big bills change hands than he has seen in a newspaper office in the last decade. In fact bills of the above denominations were more plentiful than change.

A merchant remarked when asked change for \$5, "I can 'break up' a \$100 bill but I've no silver." The L. & N. pay car leaves about \$8,000 at Livingston monthly and it is "good times" for a day or so after its visits. W. R. Dillion sold his big saw mill and hotel the other day to Senator Thomas, of Paris, for \$12,000 and will likely move away from Livingston. His son, Russell Dillion, who married in Lincoln, will come down and become an East End farmer. T. W. Mullins sold his business house and two residences to J. W. Baker the other day for a snug sum. Real estate is high in Livingston and there's not a vacant house in the town. Three hotels and a number of boarding houses are always crowded. The dozen or so stores do a flourishing business, while restaurants, which run day and night, are "good things" for their owners. W. W. Carter is now day yard master at Livingston and he makes a good one. He and "Red" Farley, the latter night man, make a splendid team for the yard there. The old fiddler's contest set for Thursday night failed to materialize. James Mudd and Alex Martin were the only entries and the contest was declared off. Thomas Lasley, an old Stanford boy, is now an engineer and is a first-class one. He "pulls" freights at present.

DON'T forget the apron sale to be given at Mrs. J. S. Rice's by the ladies of the Baptist church this afternoon and evening.

THE new postoffice of Albright is on the road leading from Crab Orchard to Bee Lick. Mrs. Uriah Albright will be postmaster.

WANTED.—I want 500 barrels of corn and car load of oats to be delivered at Moreland or McKinney. George D. Weatherford, Hustonville, Ky.

A BANQUET for the male members of the Baptist church is scheduled for next Tuesday night, 30th. It will be given in Severance & Sons' old store room.

FOR SALE.—Eight 60-pound shoats, 10 thoroughbred White Plymouth Rock cockerels, 200 egg Reliable Incubator and brooder. Good as new. James D. Snelby, Junction City, Ky.

THE ladies of the Presbyterian church will have an exchange tomorrow in Severance & Sons' old store. They earnestly ask all the members to send donations and have them there by 9 o'clock A. M.

OUR thanks are due and are hereby tendered to our good friends, Prof. M. D. Hughes and Mr. Millard Rout for a nice batch of new subscribers received this morning. The I. J. has almost as many warm friends in Garrard as it has at home.

THERE will be a Christmas tree at Sugar Grove school-house Wednesday afternoon. An interesting program consisting of songs, readings, prayer, etc., will be carried out before the presents are distributed. The exercises will begin at 2 o'clock.

UNLESS something of great importance transpires we will not issue Friday. Printers, like other people, need a little rest now and then and we propose to take it once a year by skipping an issue during Christmas. The office will be open from 6 A. M. to 5 P. M. each day, however, and if there be any who want printing done or desire to pay their accounts, they will be cheerfully waited on. By the way, don't let the new year catch you owing for your home paper.

## REMEMBER

That so-called cheap insurance is the dearest thing on earth.

That a dollar saved in the premium may cost you a hundred in a loss.

That only solid cash, in sight, and experienced management guarantee sure indemnity.

That insurance in the Home, of New York, can be relied on.

## BILTMORE.

The Biltmore estate is one of the most notable in the country. Mr. Geo. W. Vanderbilt has purchased 147,000 acres of land in one body near Asheville, N. C., for which he paid the sum of \$3,000,000. Some of this land cost very little, while a part of it cost as much as \$400 per acre. The fence around the estate is over 300 miles long. Much of this land is wild, mountainous, and forest covered and it contains several beautiful lakes and streams. The forests are alive with game, while the streams swarm with splendid fish which Mr. Vanderbilt is averse to slaughter, and these are taken very sparingly. While most of the land is forest and pasture, there is a small patch of 9,000 acres cleared and which can be cultivated. Of this only 2,400 acres are actually cultivated, and land that is cultivated this year is allowed to lay fallow next. Mr. Vanderbilt's home cost him something like \$7,000,000. It covers an area of 375 by 192 feet and the highest towers rise 110 feet from the ground. The foundations are 20 feet wide and are built of stone from local quarries; the contractors using 11,000,000 bricks, 17,000 tons of steel and 6,000 barrels of cement. It is the finest residence in America and perhaps in the world. Other millions have been invested in other buildings and in the making of roads, driveways, lakes, etc., and it is thought that at least \$20,000,000 will be expended when the ambitions of the owner are realized. Such accumulations of wealth can only be perpetual by the serfdom of the masses and that can not long exist in a free country. Some future Vanderbilt, is almost certain, thinks an exchange, to run afoul of utilitarian conditions which will convert his vast estate into farms and factories, villages and the homes of men and make of his \$7,000,000 ancestral home an isolated monument to the foolish pride of his ancestor.
